Added Protection for You and Your Family

Chances are you know someone who's been affected, directly or indirectly, by cancer. You also know the toll it's taken on them—physically, emotionally, and financially. That's why we've developed the Aflac Cancer Care insurance policy. The plan pays a cash benefit upon initial diagnosis of a covered cancer, with a variety of other benefits payable throughout cancer treatment. You can use these cash benefits to help pay out-of-pocket medical expenses, the rent or mortgage, groceries, or utility bills—the choice is yours.

And while you can't always predict the future, here at Aflac we believe it's good to be prepared. The Aflac Cancer Care plan is here to help you and your family better cope financially—and emotionally—if a positive diagnosis of cancer ever occurs. That way you can worry less about what may be ahead.

HOW IT WORKS

The above example is based on a scenario for Aflac Cancer Care – Classic that includes the following benefit conditions: Physician visit (Cancer Wellness Benefit) of \$75, bone marrow biopsy (Surgical/Anesthesia Benefit) of \$125, NCI Evaluation/Consultation Benefit of \$500, Initial Diagnosis Benefit of \$4,000, venous port (Surgical/Anesthesia Benefit) of \$125, Injected Chemotherapy Benefit (10 weeks) of \$6,000, Immunotherapy Benefit (3 months) of \$1,050, Antinausea Benefit (3 months) of \$300, Hospital Confinement Benefit (10-week hospitalization) of \$14,000, Blood/Plasma Benefit (10 transfusions) of \$1,000.

If more than one unit has been purchased, the amounts listed must be multiplied by the number of units in force.** The number of units you purchased is shown in both the Policy Schedule and the attached application.

(The amount of the monthly increase will be determined on a pro rata basis.) This benefit will be paid under the same terms as the Initial Diagnosis Benefit in the policy to which this rider is attached. This benefit will cease to build for each Covered Person on the anniversary date of this rider following the Covered Person's 65th birthday or at the time Internal Cancer or an Associated Cancerous Condition is diagnosed for that Covered Person, whichever occurs first. However, regardless of the age of the Covered Person on the Effective Date of this rider, this benefit will accrue for a period of at least five years, unless Internal Cancer or an Associated Cancerous Condition is diagnosed prior to the fifth year of coverage.

Exceptions, Reductions and Limitations of Rider A78050 Series:

This rider contains a 30-day waiting period. If a Covered Person has Internal Cancer or an Associated Cancerous Condition diagnosed before coverage has been in force 30 days from the Effective Date, you may, at your option, elect to void the rider from its beginning and receive a full refund of premium.

The Initial Diagnosis Building Benefit is not payable for: (1) Internal Cancer or an Associated Cancerous Condition diagnosed during this rider's 30-day waiting period; (2) the diagnosis of Nonmelanoma Skin Cancer; or (3) claims incurred prior to the Effective Date of this rider. For premiums to be waived, Aflac will require an employer's statement (if applicable) and a Physician's statement of your inability to perform said duties, and may each month thereafter require a Physician's statement that total inability continues.

If you die and your Spouse becomes the new Named Insured, premiums will resume and be payable on the first premium due date after the change. The new Named Insured will then be eligible for this benefit if the need arises.

Aflac will also waive, from month to month, any premiums falling due while you are receiving Hospice Benefits.

TERMS YOU NEED TO KNOW

ASSOCIATED CANCEROUS CONDITION: Myelodysplastic blood disorder, myeloproliferative blood disorder, or internal carcinoma in situ (in the natural or normal place, confined to the site of origin without having invaded neighboring tissue). An Associated Cancerous Condition must receive a Positive Medical Diagnosis. **Premalignant conditions or conditions with malignant potential, other than those specifically named above, are not considered Associated Cancerous Conditions.**

CANCER: Disease manifested by the presence of a malignant tumor and characterized by the uncontrolled growth and spread of malignant cells, and the invasion of tissue. Cancer also includes but is not limited to leukemia, Hodgkin's disease, and melanoma. Cancer must receive a Positive Medical Diagnosis.

- 1. INTERNAL CANCER:** All Cancers other than Nonmelanoma Skin Cancer (see definition of "Nonmelanoma Skin Cancer").
- 2. NONMELANOMA SKIN CANCER:** A Cancer other than a melanoma that begins in the outer part of the skin (epidermis).

Associated Cancerous Conditions, premalignant conditions, or conditions with malignant potential will not be considered Cancer.

COMA: A continuous state of profound unconsciousness, diagnosed or treated by a Physician after the Effective Date of the rider, and characterized by the absence of (1) spontaneous eye movements, (2) response to painful stimuli, and (3) vocalization. The condition must be diagnosed as a total rating of 8 or less on the Glasgow Coma Scale. The condition must require intubation for respiratory assistance.

CORONARY ANGIOPLASTY: A medical procedure in which a balloon is used to open narrowed or blocked blood vessels of the heart (coronary arteries). A Coronary Angioplasty may be performed to treat persistent chest pain (angina), blockage of one or more coronary arteries, or residual obstruction in a coronary artery during or after a Heart Attack. These procedures may be performed with or without stents.

CORONARY ARTERY BYPASS SURGERY: Open-heart surgery, performed after the Effective Date of the rider, to correct narrowing or blockage of one or more coronary arteries with bypass grafts, but excluding procedures such as but not limited to Coronary Angioplasty, laser relief, or other nonsurgical procedures. This does NOT include valve replacement surgery.

COVERED PERSON: Any person insured under the coverage type you applied for: individual (named insured listed in the Policy Schedule), named insured/Spouse only (named insured and Spouse), one-parent family (named insured and Dependent Children), or two-parent family (named insured, Spouse, and Dependent Children). "Spouse" is defined as the person to whom you are legally married and who is listed on your application. This includes parties joined in civil union. Newborn children are automatically insured from the moment of birth. If coverage is for individual or named insured/Spouse only and you desire uninterrupted coverage for a newborn child, you must notify Aflac in writing within 31 days of the birth of your child, and Aflac will convert the policy to one-parent family or two-parent family coverage and advise you of the additional premium due. Coverage will include any other Dependent Child, regardless of age, who is incapable of self-sustaining employment by reason of mental retardation or physical handicap and who became so incapacitated prior to age 26 and while covered under the policy. "Dependent Children" are your natural children, stepchildren, or legally adopted children who are under age 26.

EFFECTIVE DATE: The date coverage begins, as shown in the Policy Schedule. The Effective Date is not the date you signed the application for coverage.

END-STAGE RENAL FAILURE: Permanent and irreversible kidney failure, not of an acute nature, requiring dialysis or a kidney transplant to maintain life.

HEART ATTACK: A myocardial infarction, coronary thrombosis, or coronary occlusion that is diagnosed or treated after the Effective Date of the rider. The attack must be positively diagnosed by a Physician and must be evidenced by electrocardiographic findings or clinical findings together with blood enzyme findings. MAJOR THIRD-DEGREE BURNS: An area of tissue damage in which there is destruction of the entire epidermis and underlying dermis, and that covers more than 10 percent of total body surface. The damage must be caused by heat, electricity, radiation, or chemicals.

PARALYSIS: Spinal cord Injuries occurring after the Effective Date of coverage resulting in permanent, complete and total loss of use of two or more limbs (paraplegia, quadriplegia, or hemiplegia). The Paralysis must be confirmed by your attending Physician.

PERIOD OF HOSPITAL CONFINEMENT: The time period of Hospital Confinement that starts while the policy and rider are in force. If confinement follows a previously covered confinement, it will be deemed a continuation of the first confinement unless: (1) the later confinement is the result of an entirely unrelated Sickness or Injury or (2) the confinements are separated by 30 days or more during which the covered person is not confined in any institution or facility. Hospitalization that begins prior to the end of one Calendar Year and continues into the next Calendar Year will be considered one confinement.

PERSISTENT VEGETATIVE STATE: A state of severe mental impairment in which only involuntary bodily functions are present and for which there exists no reasonable expectation of regaining significant cognitive function. The procedure for establishing a Persistent Vegetative State is as follows: two Physicians, one of whom must be the attending Physician, who, after personally examining the Covered Person, shall certify in writing, based upon conditions found during the course of their examination, that:

1. The Covered Person's cognitive function has been substantially impaired; and
2. There exists no reasonable expectation that the Covered Person will regain significant cognitive function.

"Specified Health Event" includes Heart Attack, Stroke, Coronary Artery Bypass Surgery, End-Stage Renal Failure, Major Human Organ Transplant, Major Third-Degree Burns, Persistent Vegetative State, Coma, or Paralysis occurring after the Effective Date of the rider.

STROKE: Apoplexy due to rupture or acute occlusion of a cerebral artery that is diagnosed or treated after the Effective Date of the rider. The apoplexy must cause complete or partial prolonged loss of function involving the motion or sensation of a part of the body. The Stroke must be positively diagnosed by a Physician based upon documented neurological deficits and confirmatory neuroimaging studies. "Stroke" does not mean head Injury, transient ischemic attack (TIA), or cerebrovascular insufficiency.

SUDDEN CARDIAC ARREST: Sudden unexpected loss of heart function in which the heart abruptly and without warning stops working as a result of an internal electrical system malfunction of the heart. Any death where the sole cause of death as shown on the death certificate is cardiovascular collapse, sudden cardiac arrest, cardiac arrest, or sudden cardiac death shall be deemed to be Sudden Cardiac Arrest for purposes of the rider. Sudden Cardiac Arrest is not a Heart Attack.
